

E&J. Gallo Winery

COASTAL VITICULTURE INTERNSHIP

Duration: 6 months

Number of Internships Available: 8

Multiple Locations in California:

- Sonoma County
- Napa County & Surrounding Areas
- San Luis Obispo County & Surrounding Areas

Start Date: April to July

End Date: November to December

Interviews: Beginning in February

Preferred Majors: Horticulture, Agriculture, Plant Science, Biology, Geology and Soil Science

What you will do:

Interns will experience hands-on learning and support our Vineyard Operations for the 2022 harvest season. In addition to working closely with professional vineyard managers and viticulturists interns will have the opportunity to complete a comprehensive vineyard project to develop skills and deepen knowledge.

Essential functions will include:

- Crop estimation, phenology tracking and irrigation practices
- Vineyard health monitoring and assisting with treatment recommendations and implementation
- Using technology to monitor field conditions and implement precision farming practices
- Harvest activities including maturity sampling, harvest equipment preparation and quality control of harvested fruit

This is a highly competitive paid internship opportunity for students and recent graduates!

Apply Now At: <https://tinyurl.com/2p8uwfs3>. Closing Date: April 1, 2022.
